The Tractor...!!

You may have noticed that the tractor that we use at St Michael's School has not been in the best of health recently....

The good news is It has been fixed!!

New brakes, new sparkplug, new oil seals, and the choke now works (but shouldn't really be needed...)

MKL news...

There are now only 6 clubs in the MKL for 2018...

This means that we will all be shooting in one league.

There are other changes...

All scores are handicap only, and everyone in the team must have a handicap.

There seems to be no compulsion for 1st class archers to shoot St George rounds. (so no disincentive to try to get 1st class!!)

Please volunteer for the team..!!

It really is a good, fun day shooting!
